Professor of Chemistry at Michigan State University

Monday, Feb 9, 2015

TBBC 4630

4:00 – 4:30 Refreshments & live music / 4:30 – 6:00 Lecture
(Chemistry's Thatcher Seminar Room – 4th floor)

Evidence-Based Approaches to STEM Curriculum Reform

This presentation will focus on the need for evidence based curriculum reform, the research findings that can guide such reforms, and how we might assess the results of these reforms.
